| Project Location: (Township/Range/ Please attach map) Shoshone County within National Forest Lands | |
| Partners/Volunteers: Shoshone County | |
| Is NEPA Complete On This Project? No | |

Brief Description of Project:

To Hire one adult youth crew supervisor to supervise a summer youth crew to control noxious weeds outside of the county right-of-way spray program within National Forest Lands. Having a pesticide-licensed applicator makes it possible for the youth crew to also do herbicide treatments. The youth crew is charged with inventory and treatment of noxious weeds targeting new invaders and putting the states ED/RR (Early Detection/Rapid Response) program in action. Without an adult supervisor, the youth crew is not able to do herbicide treatments making the youth program less effective. This program dramatically increases the number of acres inventoried and treated that otherwise would not be possible.

EXPECTED OUTCOME AND BENEFITS: Increased number of acres of noxious weed controlled. Effective youth crew to inventory and treat new invaders, monitor and treat know sites outside of the county right-of-way spray program within National Forest Lands.
