

**IDAHO PANHANDLE RESOURCE ADVISORY COMMITTEE
TITLE II PROJECT INFORMATION FORM**

PROJECT NAME: Shoshone County	
Project Sponsor: Leslee Stanley 753-5475	
Address:	Shoshone Co. Noxious Weeds 700 Bank St., Ste 35 Wallace, ID 83873
Phone:	Leslee Stanley 753-5475
County: Shoshone	
Project Location: Shoshone County	
Partners/Volunteers: Kootenai & Benewah Counties, Inland Empire Cooperative Weed Management Area (IECWMA) USFS-Cd'A River and St Joe Ranger District, Bureau of Land Management, Idaho State Department of Agriculture (ISDA), Idaho Transportation Department, and Landowners	

BRIEF DESCRIPTION OF PROJECT, EXPECTED OUTCOME AND BENEFITS: <i>(Please limit color photos to two pages or less)</i>
<p>Is NEPA Complete On This Project? N/A</p> <p>PROPOSED WORK: Purchase a 200-gallon slip-in spray system to allow Shoshone County the ability to do spot treatments. Currently, summer crews are using a 25g tank in the back of a pickup to do right-of-way spot treatments approximately a week after treatment has been done with the spray truck. This also allows treatments closer to sensitive areas not allowed by boom spraying. While this has proven extremely successful, the size of the tank and 15 foot hose has limited treatment and success. This system would allow treatment in areas unsafe for the ATV (major roads) and also areas too rough for the spray truck (the spray truck needs to maintain a minimum speed of 10 mph). It also would allow treatment from the extent of the spray truck spray line and landowners. This is a request/complaint I often receive.</p> <p>Areas of treatment: Road right-of-ways, recreation sites, pastures, grazing allotment, open fields, and riparian areas. These areas are a high priority because of weed disbursement through high water, heavy recreation use, vehicle, cattle and wildlife's ability to spread noxious weeds.</p>

DESCRIPTION OF PROJECT, CONTINUED:

PROJECT COSTS:

Title II (RAC) Funds Requested:	\$3,000
Partnership Funds:	\$20,000
Forest Service Funds:	
In-Kind/Volunteer Time:	\$1,000
